Fresh Graduate with a Bachelor's Degree in Mathematics at Institut Teknologi Sepuluh Nopember (ITS) with a strong foundation in data analysis and machine learning. Experienced in cprocessing, analyzing, and visualizing data through internships and academic projects. Have a strong passion for transforming complex data into meaningful insights that support data-driven decision making.

Education

Institut Teknologi Sepuluh Nopember (ITS) • Surabaya, Indonesia

Agt 2022 – Present

Bachelor of Mathematics

GPA : 3.77/4.00 (Magna Cum Laude) | **Focus** : Data Analytics, Machine Learning, and Computational Mathematics

Thesis : Modeling and Formal Verification of Gold Investment Returns Using Discrete-Time Markov Chain and Probabilistic Computation Tree Logic

SMA Negeri 3 Blitar • Blitar, Indonesia

Jul 2019 – Jun 2022

Senior High School – Mathematics and Natural Sciences

Grade : 93.61

Professional Experiences

Badan Pusat Statistik (BPS) Kota Blitar • Blitar, Indonesia

Jan 2025 – Feb 2025

Data Analyst Intern

- Collected agricultural production data through direct field surveys
- Performed data entry, validation, and management using Microsoft Excel
- Processed and analyzed Blitar City rice production data and developed ARIMA forecasting models to predict production trends
- Applied K-Means Clustering to identify economic pattern, achieving a Davies-Bouldin Index (DBI) of 0.19499, indicating strong cluster quality

Programming and Visual Computing Laboratory • Surabaya, Indonesia

Sep 2024 – Jun 2025

Laboratory Assistant

- Assisted Algorithm and Programming courses for 30+ undergraduate students
- Delivered explanations for 15+ modules on Algorithms and Programming courses
- Assessed and evaluated the performance of 30+ students

ITS Online – ITS Media Center • Surabaya, Indonesia

Nov 2022 – August 2026

Journalist

- Produced 93+ news articles of institutional events
- Edited and Refined 68+ news articles to improve clarity and accuracy
- Reached 256.000+ audience views through published content
- Served as a reporter and editor for 11 editions of the university's official magazine (4 as reporter and 7 as editor)

Project Experiences

Global Project-based Learning in Data Science 2025 • Tokyo, Japan

Sep 2025

Student Exchange

- Developed a data science project to analyze the chattering phenomenon during metal cutting using image data and labeled time-series machining datasets
- Collaborated in an international team of five students from three countries
- Conducted data preprocessing before building an XGBoost model with up to 90% accuracy

Global e-Commerce Sales Dashboard

Business Dashboard

- Transformed raw datasets using Excel pre-processing techniques
- Developed interactive Power BI dashboards for meaningful data visualization and business insight
- Designed user-friendly and insightful dashboards that enabled efficient data exploration and decision making

Customer Churn Analysis

Business Analysis

- Conducted data preprocessing and exploratory data analysis (EDA) to identify customer behavior patterns
- Developed and evaluated Logistic Regression and Random Forest models to predict customer churn
- Developed an interactive Streamlit dashboard to visualize customer characteristics, churn patterns, and analytical findings

Certifications

- Python for Data Science and Machine Learning Certificate
- Bootcamp Data Analyst
- Microsoft Excel Specialist

Skills

Programming Languages : Java, Python | **Tools** : Excel, Power BI, MATLAB, LaTeX, Figma, SQL Server |

Languages : Indonesian (Native), English (Intermediate)
