Final-year Mathematics Undergraduate Student at Institut Teknologi Sepuluh Nopember (ITS) with strong analytical and problem-solving skills. Experienced in data processing, statistical analysis, and data visualization through academic projects and professional experiences. Proficient in transforming complex datasets into meaningful insights using tools such as Excel, Power BI, and Python. Detail-oriented, highly organized, and eager to support financial reporting, dashboard development, and data-driven decision-making within a finance team.

Education

Institut Teknologi Sepuluh Nopember (ITS) • Surabaya, Indonesia <i>Bachelor of Mathematics</i>	Agt 2022 – Present GPA 3.75/4.00
SMA Negeri 3 Blitar • Blitar, Indonesia <i>Senior High School – Mathematics and Natural Sciences</i>	Jul 2019 – Jun 2022

Professional Experiences

Badan Pusat Statistik (BPS) Kota Blitar • Blitar, Indonesia <i>Student Intern</i>	Jan 2025 – Feb 2025
- Transformed raw datasets using Excel pre-processing techniques - Developed interactive Power BI dashboards for meaningful data visualization and business insight - Designed user-friendly and insightful dashboards that enabled efficient data exploration and decision making	
Programming and Visual Computing Laboratory • Surabaya, Indonesia <i>Laboratory Assistant</i>	Sep 2024 – Jun 2025
- Assisted Algorithm and Programming courses for 30+ undergraduate students - Delivered explanations for 15+ modules on Algorithms and Programming courses - Assessed and evaluated the performance of 30+ students	
Sub-Directorate of Common Lectures Coordination (SKPB) ITS • Surabaya, Indonesia <i>Lecturer Assistant</i>	Aug 2023 – Present
- Assisted Calculus and Mathematics courses for undergraduate students - Teaching over 1.000 students for 2 years++ - Discussing topics on linear functions, calculus, matrices, and many more	
ITS Online – ITS Media Center • Surabaya, Indonesia <i>Journalist</i>	Nov 2022 – Present
- Produced 93+ news articles of institutional events - Edited and Refined 68+ news articles to improve clarity and accuracy - Reached 256.000+ audience views through published content	

Project Experiences

Global e-Commerce Sales Dashboard <i>Business Dashboard</i>	
- Transformed raw datasets using Excel pre-processing techniques - Developed interactive Power BI dashboards for meaningful data visualization and business insight - Designed user-friendly and insightful dashboards that enabled efficient data exploration and decision making	
Febelajar – Academic Website <i>Academic Website</i>	
- Transformed raw datasets using Excel pre-processing techniques - Developed interactive Power BI dashboards for meaningful data visualization and business insight - Designed user-friendly and insightful dashboards that enabled efficient data exploration and decision making	
Global Project-based Learning in Data Science 2025 • Tokyo, Japan <i>Student Exchange</i>	Sep 2025
- Developed a data science project analyzing the chattering phenomenon on metal surfaces - Collaborated in an international team of five students from three countries - Conducted data preprocessing before building an XGBoost model with up to 90% accuracy	

Ant Colony Optimization for Traveling Salesman Problem

Machine Learning

- Collected, cleaned, and prepared location data of cities in East Java for optimization analysis
- Developed and implemented the Ant Colony Optimization (ACO) algorithm
- Interpreted optimization results and presented them through interactive and engaging analysis

Organizational Experiences

ITS Online • Surabaya, Indonesia

Managing Editor (Vice Head)

Feb 2025 – Feb 2026

- Initiated and led 32+ weekly editorial strategy meetings to drive content planning
- Coordinated the execution of 16+ editorial programs and newsroom agendas
- Developed and delivered 4 quarterly performance reports for 25 reporters

Secretary & Treasurer

Nov 2023 – Feb 2025

- Managed and supervised editorial financial administration over 16-month period
- Prepared and distributed monthly financial reports for 35 editorial team members
- Administered official correspondence and document management, including drafting and archiving administrative records

Bidikmisi ITS • Surabaya, Indonesia

Head of Media and Information Department

Feb 2025 – Feb 2026

- Led and supervised a team of 13 in developing and strengthening organizational branding initiatives
- Formulated long-term content planning strategies to ensure consistent and impactful communication
- Ensured quality and consistency of publications across official organizational media channels

Staff of Media and Information Department

Feb 2023 – Dec 2023

- Developed content briefs as strategic guidelines for visual design production
- Collaborated with the design team to ensure alignment and coherence of visual concepts
- Produced graphic design assets tailored to stakeholder needs and requirements

Certifications

Python for Data Science and Machine Learning Certificate

May 2026

UDemy Course

Covers data analysis, preprocessing, and the implementation of 10+ machine learning models, including basic NLP and neural networks.

Microsoft Excel Specialist

Apr 2026

KarirNex

Certification in Microsoft Excel Fundamentals Bootcamp, covering essential Excel skills including data management, formulas and functions, pivot tables, and basic VBA macros.

Advance Media Schooling Certificate

Nov 2023

BEM FSAD ITS

Certification focused on advance training in media and digital communication including design principles, copywriting, and website development.

Skills

- **Programming Languages** : Java, Python, HTML
- **Tools** : Excel, Power BI, MATLAB, LaTeX, Figma, Canva, Spreadsheet, Word
- **Languages** : Indonesian (Native), English (Professional)
